

ESDi reserves the right to change the contents, location, schedule and dates of the program before the starting date. Registration will be considered formalized once the reservation and first payment on account have been made, understanding the payment as acceptance and signature of the registration of the corresponding course.

Place reservation - Preregistration.

The person concerned will have to make the payment of the amount specified in concept of registration fees in the program. This amount will be deducted from the total amount of the tuition and will only be refunded if the person does not meet the access requirements in force to pursue university studies or the specific ones established by the centre for each degree. In case of students who require a visa to be able to study, the amount of the commitment fee would be returned if the visa is not granted, as long as the candidate can provide the corresponding documentation proving s/he has been denied the right to access Spanish territory. In case of a serious medical condition or accident, as long as it makes it impossible for the candidate to commence the Program, the commitment fee would be returned upon providing an official medical report stating the initial date of the illness, and the estimated convalescence period. Finally, the commitment fee would be reimbursed if the candidate can prove irrefutably the non-fulfilment of the requirements to study.

Cancellation or postponement of the course.

ESDi reserves the right to cancel or postpone a program if there are not enough students, always respecting a deadline of five weeks before the start of the course. In the event of cancellation, ESDi will return the entire amount paid without any additional compensation. In case of deferment, ESDi will return the amount paid to the people who request it.

Change of registration.

Changes in enrolment, previously authorized by ESDi and after the deadline established in the registration process, may entail a cost in administrative expenses.

Discounts.

- Discounts can only be accumulated up to a maximum of 25% discount (provided that one of them is a discount for early payment).
- Scholarships and discounts can be accumulated up to a maximum of 25% discount (two scholarships cannot be combined).
- No discount that has not been previously requested and it's accredited will be applied.
- Once the registration is issued, no discount will be applied.
- It is the student's responsibility to request a certain discount.

Non-payment.

Failure to comply with the payment deadlines (in the instalment payment modality) may entail the cancellation of enrolment, the loss of the right to examination and the right to access the campus.

Cancellation of enrolment / Withdrawal of the student.

In case of resignation or cancellation of enrolment, the student must make, in advance, a written communication to ESDi Higher School of Design. Cancel the registration does not entitle to a refund of the amount paid. However, ESDi will refund payments exceptionally if cancellation is produced by one of the following cases:

- Denial of visa, presenting supporting documentation. In this case, ESDi will refund the full amount of the registration once the administrative expenses have been deducted.
- Serious medical condition or accident, as long as it makes it impossible for the candidate to commence the Program, which has to be documented through an official medical report stating the initial date of the illness, and the estimated convalescence period. In this case, ESDi decides that:
 - If the communication occurs up to one month after the start of the program, ESDi will return the amount actually paid once the administrative costs have been deducted.
 - One month after the start of the program no refund will be made, only the amount paid for the registration in the next edition will be allowed. This operation does not entail any administrative expense for the student. In any case, the student will assume the price difference between the new enrolment and the previously satisfied amount.

In the cases that the student has opted for the fractioned payment, the remaining monthly payments must be paid at the time of the withdrawal.

Qualification.

The student with accounts payable or who has not approved all the credits necessary to pass the program before the end date will not be able to obtain the corresponding degree.
